Let's have a casual chat ~~~~~

Firstly, I'd like to thank all the readers for their support. To Guo who bought Superstar 18 months ago, I say: Qixie! Thanks for your hard work~

I don't know if anyone paid attention, but ever since teacher Zuo Xiao Quan asked, School Sketches naming has become even more impressive. It went to being around 7 or 8. To see this kind of result, I'm grateful. Again, I say thank you to all the readers! Apart from the support for the work, Teacher Zuo has already helped me a lot in life. I encountered a lot of trouble being done in Beijing. Teacher is like my half editor. Because of this, School Sketch can continue smoothly.

At the end of this month, Teacher Zuo's work 'Cyclic City Issue Let's' (艾丽丝城市) will also be published. I hope that this new work will be a hit. I also hope that all you readers can support it~ Thanks everyone!

There's something else I have to mention. That is, my Beijing assistants Lu Zhi Min. All along I haven't written his name, because Zhi Min understands to respect the manhua author's terms design, born low-profile. Because of his skills, School Sketch became a lot more colourful. Thank you very much, and it has been a pleasure working with you. Because of certain things that happened, we can no longer work together on School Sketch. To this month, it will be a great loss. If you know what am I going to do? I don't want to tell you know. I have so I still hope that you have a great future. I also hope that I can meet your new work soon.

I hope that all you readers won't give up on this manhua. I believe that all the problems will be solved. School Sketch will get its paperback release in August~ Everyone remember! There's a surprise for everyone! (Then to continuing looking for an assistant~)

Now to those translators on the other side of the world. Thank you for your work! I'm very happy to see School Sketch in another language. Your translations have made School Sketch even more colourful. It's like the effort of stamping to English the quality went up instantly! Is that in English? Thank you for finding the rest of the world read this made in China work.

Due to the complicated state of China now, manhua and other industries might take a long time before they'll become a big hit like in your country. But I believe that we're all lovers of manhua. Culture crosses borders, and manhua is the same. I hope that manhua will draw us even closer, and that you understand China more.

I believe that you'll find even more exciting Chinese manhua in the future.

Lastly, I wish for world peace~

Yours Sincerely, Saku!

TL Note:
We love you too!
It's magic, not on Saku! ~)

Oh right, there's a few places you can try translating

艾丽丝城市 - Artbook
艾丽丝城市 - Reading Treasury
艾丽丝城市 - Photo Collage
